To: stip@dot.state.ak.us

This is a reply to your letter addressed to the Kenny Lake Community League.

I fully support your efforts in this matter. I can understand that in doing this local consultations that it creates another layer of work for the DOT. I also know that by the DOT conducting business in this manner that you will find more support for your ideas. I also believe that the local officials can communicate in a more through manner to the local residents than someone coming in and trying to figure out how best to touch base with the locals; possibly cutting down timed wages and letting the locals do some of the foot work.

Thankyou for the opportunity to communicate my ideas on this matter.

*Sincerely,
Steven Brittain
Chair, Kenny Lake Community League*
